RELIABLE COMPANY - distinction, which obliges.

According to the several independent pollsters research, the Internet and the view of our closest are in Poland and other countries the most popular source of information about honesty and reliability of companies for us.

Results of these research shows that we have a distance to the assessment of the companies reliability by advertising messages. Each of us deciding of our consumer choices takes both into account, the value for money of the provided by the company goods and services, and its transparency, credibility and reliability.

Continuing systematic self-development, servicing honestly and reliable from many years polish and foreign real estate markets, as a co-founder of the Polish Chamber of Real Estate, which guarantees safety perform of dreams, we decided once again to meet customer expectations and from 8th September 2011 we took part in the Reliable Company program.

The Reliable Company program is running under the National Debt Register patronage, which recommends only Reliable Companies cooperation.

The patronage on the program perform the Ministry of Economy.

Taking the huge opportunities into consideration, nowadays given by the Internet to all users, we provide now the possibility to check range of information about our credibility on-line by the link to the certificate, which is updated in the real time whenever the consumer enters to the KRD database.

Your sincerely
